

US Flow – Product Line Card

	<p>Valbart – Trunnion-Mounted Control Valves High-performance trunnion-mounted ball valves for precise control in midstream and upstream applications.</p>
	<p>Valtek Control Valves Reliable control valves engineered for durability and precise throttling in critical oil & gas processes.</p>
	<p>PMV Positioner Accurate and responsive valve positioners for improved process control and efficiency.</p>
	<p>Nordstrom – Lubricated Plug Valves Heavy-duty plug valves for dependable shutoff in harsh service conditions.</p>
	<p>Limitorque – Electric Actuators Smart, robust electric actuators designed for automated valve control in demanding environments.</p>
	<p>Limitorque – Pneumatic Actuators High-torque pneumatic actuators for rapid and reliable valve automation.</p>
	<p>Integrated Limitorque Automated Packages Custom automated valve packages combining Flowserve actuators with premium valve solutions.</p>
